

This is it (lyrics)

You and I are here tonight
You and I, we're gonna make it right
You and I will see it through
You and I will make our dreams come true

And this is the time
When I'm gonna make you mine
So open up your world, cause I'm comin in

[Chorus]
This is it
Right now
This is it
We're goin stratospheric
Whoa oh oh oh oh, oho oho

This is it
Whoa oh
This is it
We're goin overboard
Right here right now

Baby I'm, I'm giving you the sign
Baby I, I wanna cross the line
You and I, we're going strong
You and I are right where we belong

And there's nothing that's stoppin us
And we're making up our minds
I'm gonna steal through the night across your border

[Chorus]

[Instrumental]

[Chorus]

This is it
